Wool Schedule Before the Senate.

Paddock Makes a Lengthy Address.

Thinks That a System of Bounties Should Be Provided For American Sugar Growers.

Washington, September 1.-Senator Sherman gave notice of an amendment he proposed to offer to the Tariff bill, looking toward reciprocity with the Dominion of Canada in coal and towards extending trade relations between Canada and the United States.

The Tariff bill was then taken up, the question being on the paragraph as to tractor of this city, while out bathing at occurred today. Over 5000 workingmen

Mr. Paddock addressed the Senate in a friendly criticism of the Tariff bill. There was no dissent in the Republican party to the declarations it had hitherto made in its platform but there were differences of opinion as to the details of the tariff. There was no dissension as to such protection as would cover the difference in cost of labor between the United States and foreign countries. He would be glad if he hausted. could follow the majority of the Finance Committee, but he regretted that he could not see his way clearly to Colored Judges in Arkansas Ejected from

it as to all sections.

The agricultural West, he said, never favored high protective duties, but did favor sufficient protection to cover the difference in wages, while at the same time a semblance, at least, of foreign markets was preserved. The West regarded a revision of the tariff as meaning "reduction of the tariff" whenever possible, and not increases in the demand for a lower range of duties would have to receive early and favorable response from Congress. So long as a high tariff was needed to keep the wheels of industry in motion it had been another than the demand for a lower range of duties and opened polls elsewhere, the consequence being two separate polls in the wheels of industry in motion it had been another than the demand for a lower range of duties and opened polls elsewhere, the consequence being two separate polls in the wheels of industry in motion it had been another than the first and the control. There were two parades, that of the Central Labor Union, with 20,000 men, and that of the Central Labor Federation, with 25,000.

Cancago, September 1.—Labor Day was generally observed in this city with two parades, one under the auspices of the Trade and Labor Assembly, with 20,000 men in line, and one by the Knights of Labor, who turned out 1000 strong. Constructively all the union carpenters in Chicago, about 8000 in number, are on strike today. wheels of industry in motion it had been uncomplainingly supported and properly defended, but the sentiment was growing and the beilef was becomise feared.

A dispatch from McAlmont says the judges there, appointed by Hill, were refused admission to the polls. Trouble is feared. ing a fixed conviction in the West, at least, as to some of the protected industries that the decreased cost of production should now be met by greater decrease of duties than the manufacturers

American Mechanics at Pittsburg Object to Foreign Flags In a Parade.

wint consistent with the maintens of our home industries and would mand reasons for every import. Reasons that should be specific and the German flag which the bakers were conclusive not only respecting the need carrying.

of a duty but as to the amount of such The bakers defended their flag but duty. The bill as reported, while much | were overpowered and their flag trailed improved over his bill was something of in the dust. No person was seriously a disappointment. He was certain that injured but the incident created great all who were favored most directly by the maintenance of a high tariff would be better satisfied with the bill on the lines laid down by the committee than any other class. He believed in free sugar but believed it should be secured through some such plan of reciprocity as indicated by Mr. Blaine and formulated by the Finance Committee, but whatever might be done in that respect if a liberal bounty to producers of sugar assured for fifteen years, there would be no occasion whatever thereafter for the importation of a single pound of sugar the proposed tin plate industry in the the part of wisdom and justice to adopt the bounty policy rather than increased

After long discussion the committee amendments were agreed to by 26 to 18. The next paragraph related to wool or worsted clothes, knit fabrics, etc. The committee reported an amendment, increasing the duty from twice to three times the duty per pound on unwashed Bulgaria in an article on the anniverwool of the first class. Agreed to. On motion of Mr. Carlisle the word 'shawls' was inserted after the words

"woolen and worsted clothes" to the next paragraph relating to blankets, etc., hats which, it says, has had the effect of wool and flannels for underwear. The committee amendments make the duty the same as that of a pound and a half of unwashed wool of the first class in addition to advalorem rates. Agreed

Finally the wool schedule was com pleted and Mr. Vance offered as an ad ditional section an amendment of which he heretofore gave notice allowing a reduction of the duty on goods purchased with the proceeds of American farm products sold in a foreign country. vill ask for an evening session tomorrow in which to address the senate.

Schedule L relating to silk and silk was taken up and the committee amendments agreed to, also by Aldrich striking out of paragraph 392 the words "spun silk" and adding "spun silk in skeine on cops or on beams 35 per cent ad valorem." Aldrich stated the sugar schedule will be taken up

The conference report on the bill relating to collissions at sea was agreed to and the Senate adjourned.

## In the House,

Washington, September 1.-In the House today Mr. Stockbridge, of Maryland, moved a suspension of the rules to ful young girl. A letter found gave as pass a bill providing for the Government inspection of coal mines in Territories. Agreed to.
Mr. Cooper, of Indiana, said that he

learned that a member of the committee of his efforts to earn sufficient in the investigating the Pension Office, to wit, government service to live upon. Representative Smyser, of Ohio, was also a stockholder in the Refrigerator Company. He accordingly offered a resolution discharging Mr. Smyser from the committee. Mr. Smyser thereupon asked to be relieved from the com-mittee and his request was granted, Mr. Smyser said he felt there was nothing in the charges against General Raum in a thick fog and surrounded by ice-any way affecting him, but in order to satisfy the other side of the House and width but fortunately, owing to careful the country, in duty to himself he would | handling, escaped serious damage.

ask to be relieved from further service.

The Speaker said that when he appointed the committee he had no knowledge of any relation between the gentle man from Ohio and the company referred to. The Chair had made the appointments from the Committee on Pensions and Invalid Pensions because he thought it would facilitate a disposal of the matter to have gentlemen serving on the committee who had some knowl-edge of the Pension Office.

On motion of Mr. Chipman, of Michigan, the Senate bill was passed extending criminal jurisdiction of the Circuit

Many Cities. and District Courts to the great lakes and

their connecting waters.

Mr. Perkins, of Kansas, moved to suspend the rules and pass the bill to ratify and confirm the agreements with the Sac and Fox and Iowa tribes of Indians in Oklahoma. After explanations by Mr. Perkins and Mr. Peel the bill
